**Excerpt from Journal**

**12 August 1958**

The Director telephoned Carl Marcy of the Staff of the Senate Committee on Foreign Relations on the proposed disposal of the two transmitters to AMCOMLIB. The Director indicated to Marcy the importance of this transaction and not letting it go over until the next Congress. The Director asked Marcy to assure the Committee that he was personally interested in this and, if necessary, would come down to talk about it. Marcy apparently assured the Director that it would receive every consideration.

Delivered to William Darden of the Staff of the Senate Committee on Armed Services the memorandum for Senator Russell concerning the proposed transfer of two transmitters to AMCOMLIB. Mr. Darden felt that there was sufficient information contained in the memorandum. He will attempt to handle this by discussing it with a number of key members of the Committee.
